#### Inventory Management with Gojee

Gojee offers a comprehensive and robust inventory system that allows you to easily manage your tracked and untracked items. You can track item locations, serial and batch numbers, and order items through our attached [purchasing](#) module to make sure you always have the stock on hand that you need.

Gojee's inventory system is separate to Xero's inventory, and is much more advanced, offering you an extension of the Xero system. If you are currently using the Xero inventory module you will need to switch to Gojee's module. This is easy to do, and you'll get all the benefits of the advanced inventory management functionality that Gojee offers.
